

Beginning Drawing Class - Online Homework Assignment

1-Point Perspective Invented Shapes

Project Description:

Draw three invented 1-Point Perspective Shapes.

Begin by watching the Vimeo drawing demonstration: (enter the class password)

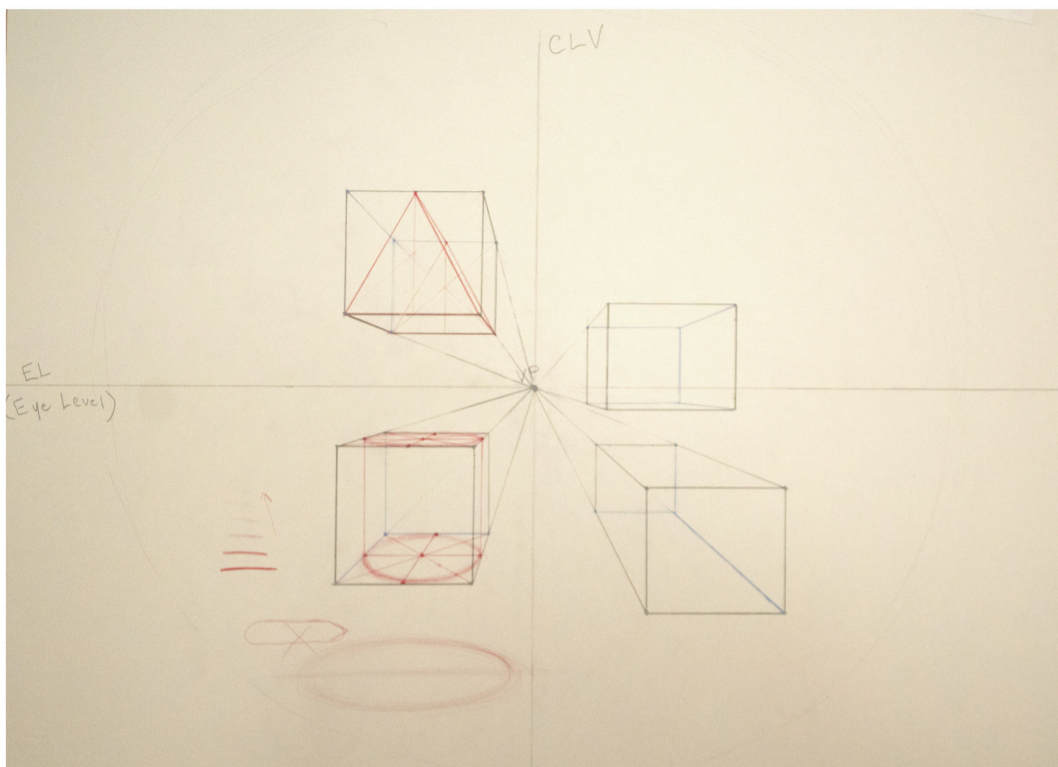

<https://vimeo.com/398716967>

Materials: 18"x 24" drawing paper, HB graphite pencil OR mechanical graphite pencil, 18" ruler,
Optional: colored pencil

Project Details:

Draw one cube that is below eye level, one cube on eye level, and one cube above eye level. Take one cube and draw an object that is more complex, using the container shape as reference (ex. a cylinder). Make sure to label your eye level, center line of vision and vanishing point.

Project Objectives: To learn the basics of 1-Point Perspective.
