

# Beginning Drawing Class - Online Homework Assignment, 1-Point Perspective Invented Grid Room with Objects

## Project Description:

Draw a 1-point perspective grid, as you follow along with the drawing demo link below.

Begin by watching the Vimeo drawing demonstration: (enter the class password)

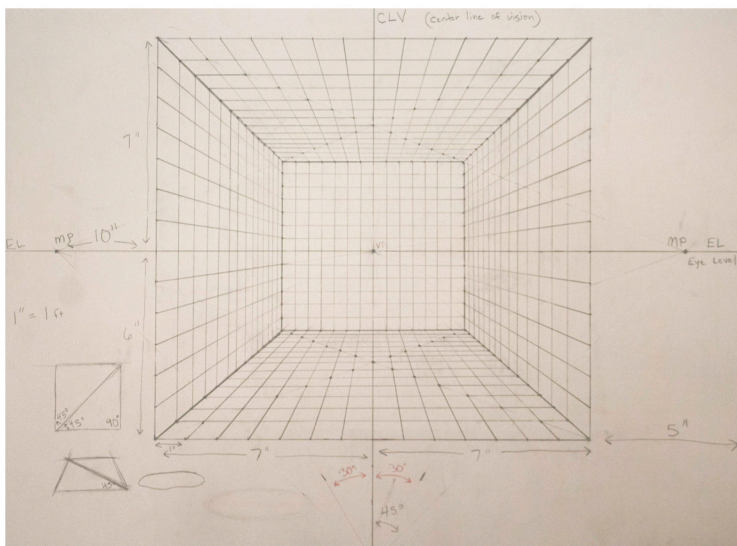

<https://vimeo.com/402470387>

**Materials:** 18"x 24" drawing paper, HB graphite pencil OR mechanical graphite pencil, 18" ruler,  
Optional: colored pencil, tracing paper

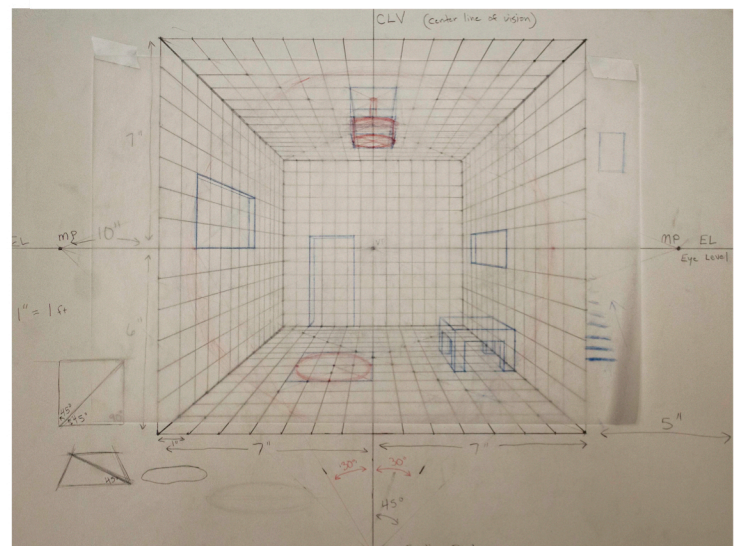

## Project Details:

Draw a 1-point perspective grid room and then add a few simple objects into the room.  
Make sure to label your eye level, center line of vision and vanishing point.

Project Objectives: To learn the basics of 1-Point Perspective and to invent shapes from your imagination using geometric container shapes.

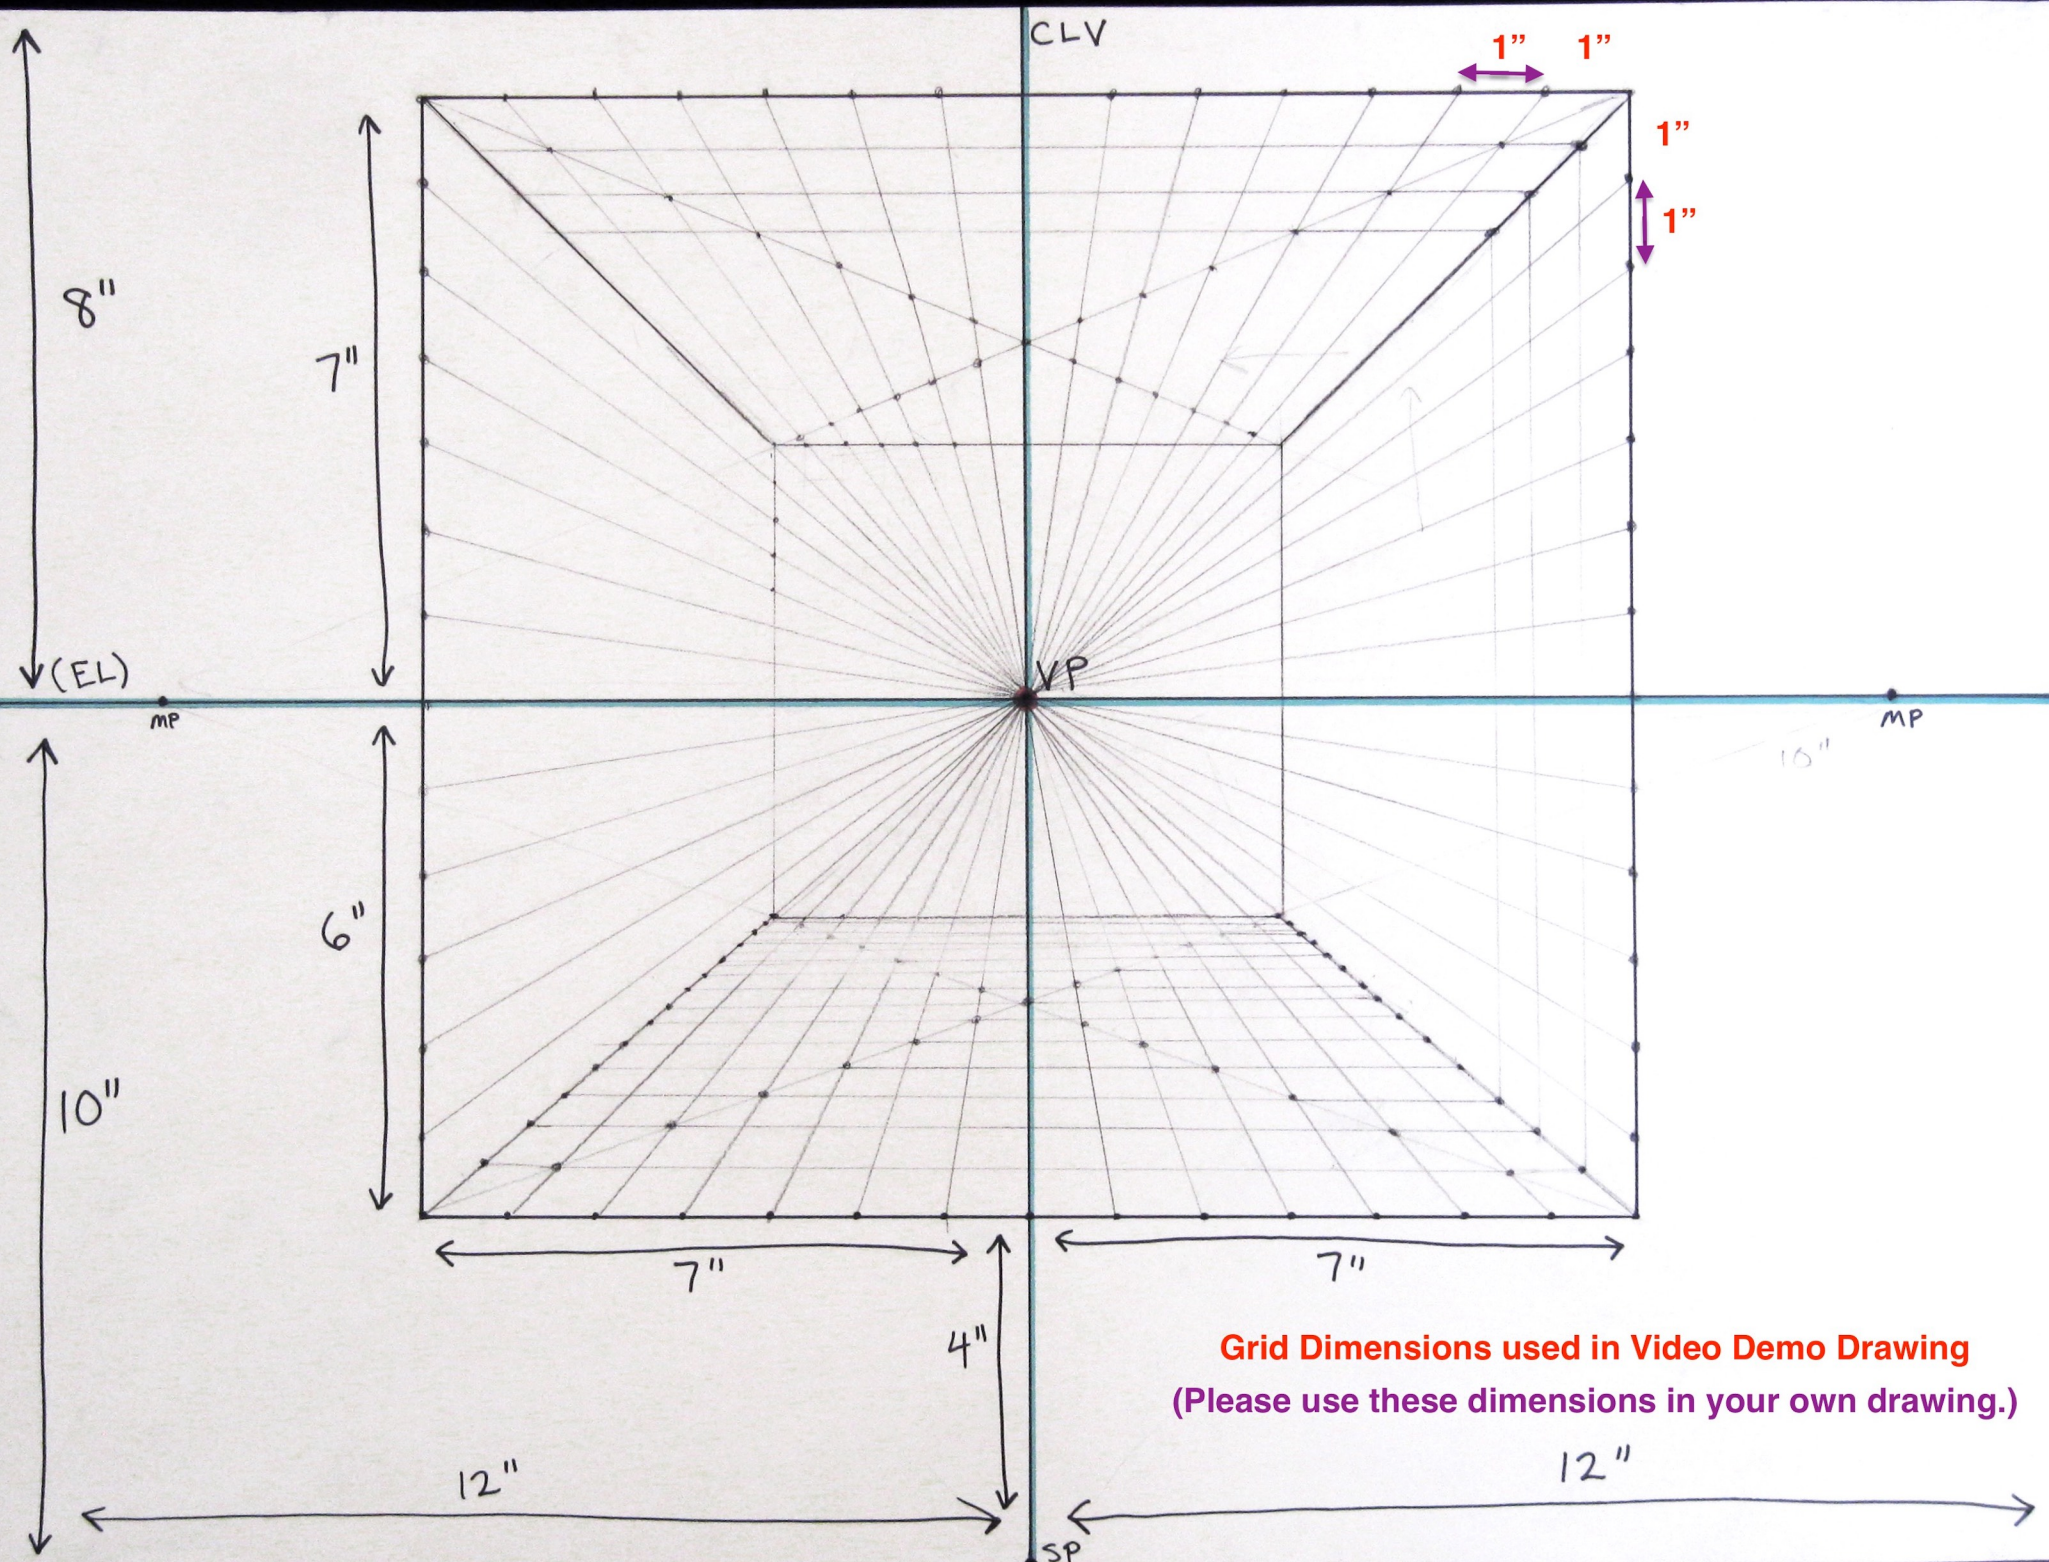

Step 1

Final Grid Image with Objects
