

**ASSIGNMENT #1: Contour and Structure**

**Medium: Graphite HB, 2B    Size: 18" x 24"**

Using only a structural line, complete a drawing of a still life set up of two (2) medium to large sized vegetables or fruit, such as a tomato, apple or pear, and an empty egg carton, with the top open. Use a single light source from above and to one side to help you see the form more clearly, but do **NOT** attempt to shade the drawing. Cut one fruit or vegetable in half. Be as descriptive as possible, giving attention to the form changes inside of the vegetable or fruit that has been cut.
